Filtering by Temporal Criteria

Hints and Tricks:

- Data can be filters either using a range of dates of by selecting combinations of specific years and/or months.
    - the first example below show filtering by date range
    - the second example show filtering data to include data from April, May, and June form all years.
- Leading zeros and four digit years should be used (e.g. 03/02/2012 is correct - 3/2/12 IS NOT)

Temporal Filter

○ No filter selected in this section   From: [03/22/2011]   To: [06/30/2011]   Filter Definition Help
● Date Range   (Date format: mm/dd/yyyy)
○ Month/Year

Temporal Filter

○ No filter selected in this section   Select Year(s) For Sample Collection Date: Filter Definition Help
○ Date Range
● Month/Year
